tion of fresh and younger blood into the cabinet. Only a few weeks ago David Lloyd George had a large following, but the anti-conscriptionists, virtually all of whom are in his own party, now seem to be lower toward him.

Grounds of Complaints.

One complaint from the newspapers i that the cabinet of twenty-two men which will necessitate a few days of affairs of the government. On the other tended meetings of the war committee and the cabinet, both of them held in his official residence.

Mr. Asquith was indisposed yesterday, but attended the cabinet meeting and received a number of visitors during the evening. His condition was so aggravated today that he consulted a physician, who ordered him to remain in bed for several days and then take a rest of a few days in the country.

Differences in the Cabinet.

The resignation of Sir Edward Carson, which was announced last night, is the first onen manifestation of the cabinet that the conduct of the war is given over to a small committee. The recall of Gen. Sir Jan Hamilton from the Dardanelles and the succession to command of a younger leader, Gen. Sir Charles Munro, may be significant of a policy of bringing in new blood. Most of the generals holding high commands are more than sixty years of age, and there has been complaint that the army is clinging to the old peace policy of promotion by seniority alone, while naval officers in high positions average more than ten years younger.

The Irish Times (Dublin) commenting on the events of the day, says:

"We make two inferences. One is that the Dardaneles campaign is not going in the cabinet that the conduct of the

All the sessions of the convention, which will continue for three days, will be held in the ballroom of the Raleigh with the exception of Thursday's events, which will be held in the new National Museum building.

Thursday afternoon the officials of the Post Office Department are to meet with the visiting postal officials and will answer questions which will have been previously placed in a question box at headquarters in the Raleigh. By this means it is hoped that many difficult problems will be thrashed out, to the better joint understanding of Washington officials and the visitors.

Total of 61,000 Eligibles.

There are more than 61,000 postal officials eligible to join the national association, and officials of the organization have been in correspondence with of them as possible to come to the con-Last year the association met at St.

Last year the association met at St. Paul, and at that time there was some question in the minds of some of the Washington Post Office Department official whether such organizations are really a benefit to the service, in view of the fact that so many organizations are for the purpose of "boosting" salahies, and attempting to influence legislation. In July many members of the organization made a visit to Washington to get a better understanding with department officials, and to try, if possible, to form all the postal organizations into one. The result of that work probably will be developed at the convention beginning tomorrow.

It is said that the present convention is probably the most important that has been held since the democratic administration came into power. Last year some of the postmasters had been in office only a few months, and as the republicans who were leaving office did not show a great interest in remaining in the organization or in its work, it was and is felt that not as much could be accomplished as can be done this year.

The convention this year, in fact, is the first in which the men now actually in charge of handling the mail for the public of the United States have participated. The organization has for its object only the promotion of the efficiency of the service and the exchanging of ideas among postmasters and postal officials.

Russian attack.
On the Isonzo front the Italians again displayed great activity last evening. Stubborn battles took place in the northwestern sectors on the plateau of Doberdo, near Peteano. A strong Italian infantry attack on our positions there reached our entanglements in some places, but finally the enemy was driven off, with heavy losses. Otherwise in the littoral and Tyrolean border regions there was only artillery fighting.
A Serbian division has been defeated in the region of Avala, retreating on both sides of the road to the south. Our troops now are attacking enemy detachments which remain north of Ralja. The enemy also was obliged to retreat in the Macva district on both sides of the lower Morava.
The Germans are gaining ground. The Bulgarians occupy the heights of Muelin Persin and Badin Zub. Farther south they have advanced over Egri Palanka.

FRENCH STATEMENT.

To the south of the River Somme, in the sector of Lihons, there were spirited rifle exchanges, in which both sides took part. In the Champagne district there has been some fighting with bombs to the east of the neighboring farm.

The concentrated fire of our artillery against the batteries of the enemy put a stop to a severe bombardment directed by them against our position at Les Eparges. There is nothing to report from the remainder of the front.

On the upper Niemen, above Deliatitchi, we carried by assault the village of Chtchersy.

South of the Pripet region and on the middle Styr our troops yesterday gained an important success during the occupation of the village of Soviechtchitzy, above Rafalovka. We captured 13 officers, including 2 battalion commanders, and 500 men. Detachments of our cavalry charged the enemy near the station of Podcherevitchi, west of Rafalovka. Thus far 30 officers and more than 1,000 men and some machine guns have fallen into our hands.

We have occupied the village of Kozlinitchi, below Czartorysk.

By simultaneous attacks from the north and south our troops occupied the village of Novoselki, on the Styr above Czartorysk, and its bridgehead. After we had repulsed an enemy counter attack we took more than 800 German and Austrian soldiers and a number of bomb throwers and some telegraph stores.

At dawn yesterday our troops got into the village of Kulikovii, above Novoselki. Thus far we have captured more than a thousand prisoners and many machine guns and bomb throwers.
